## **OBSERVATIONS**

This was a pre-operation inspection conducted as part of the Division's normal review process for 112c applications. A representative for the operator was not present. Photographs are included with this report in order to illustrate the conditions observed.

The Base Products Gravel Pit #2 is located approximately 3.25 miles northwest of Montrose and accessed from Lasalle Road. The application is for a 112c permit which proposes an affected area of 73.8 acres. The proposed permit area is currently included as part of the affected area of the Base Products Gravel Pit (M-1994-053). The area is currently undisturbed by mining operations.

The proposed area is currently utilized as irrigated farm land. The land will be reclaimed as irrigated pasture.

This inspection confirmed that conditions at the site are consistent with those presented in the application. No problems or violations were noted during this inspection.

Responses to this inspection report should be directed to Dustin Czapla at the Division of Reclamation, Mining and Safety, 1313 Sherman Street Room 215, Denver, Colorado, 80203, phone number (303) 866-3567, ext. 8188.
