Re: Lyons Quarry, Permit No. M-1977-208

To Whom It May Concern:

This letter is being written to address a question brought to the Division of Reclamation, Mining and Safety (Division/DRMS) by Boulder County Community Planning and Permitting. The question was whether the Lyons Quarry, DRMS permit M-1977-208, would have to be terminated if mining at the Dowe Flats Mine, DRMS permit M-1993-041, were to cease?

We have reviewed this question and have determined that the Lyons Quarry DRMS permit would not need to be terminated if the mining operations at the Dowe Flats Mine ended.

Sincerely,

Jared Ebert
Senior Environmental Protection Specialist
