

Ft. Carson Gate

Charter Oak Ranch Road

Pit Entrance

43.75 acres

Old water line route reclamation  
as needed. Should already be  
well vegetated. (about 7 acres)

NORTHEAST SIDE SLOPE  
RECLAMATION PROJECT  
(a 2022-2023 reclamation project -  
52.2 acres)

Operational Area  
Needed 172 acres (approx. 172)

processing and  
product stockpiling  
will move south to the new area south

Replacement Wash  
Plant to be installed in  
2022

NEW WATER LINE  
(2021)

--- Permit Boundary = Affected Land Boundary  
(643.8 acres no change from 2019)  
- - - 2021 Actual Disturbed (affected) Land  
(302.5 acres)

Revegetated; Nearly  
ready for release  
43.75 acres about 96 acres total  
reclamation

Reclamation over next  
1 to 3 years 52.2 acres

Soil/Overburden Stockpiles

Land Needed for Conducting  
Operation approx. 172 acres

10 acres Vegetated Soil/Overburden Stockpile  
established in 1980's. Fully graded and  
potentially releasable. However, this will  
remain as a reserve stockpile in the event  
more is needed at some time in the future.

Next area to be  
stripped - approx 15 ac.

possibly poor quality  
material

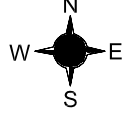

General  
Direction of  
Mining

possibly poor quality  
material

Fountain Pit  
Permit M-1982-155

Exhibit L  
Projected Possible Layout  
for 2022-2027  
(Based on 2021 annual report map,  
with future mining included.)
