

Mediterranean Sage Report

June 10th, 2022

Owner: Cemex

Address: 5134 Ute Hwy. Longmont, CO

EDDMaps ID: 4911565

Summary of Treatment

2,619 Flowering plants and rosettes were mechanically removed.

Plants are mainly in the northeastern field. Patches can be found moving north east from Hygiene road.

For reference, our crew removed 2,668 plants in the 2021 season.
