**RE: Vollmer Pit - File No. M-1983-035,  
Amendment Application (AM-1)  
Follow-up Incompleteness Notice**

Dear Mark Morley:

On September 14, 2022, the Division of Reclamation, Mining and Safety received a response to our September 6, 2022 Incompleteness notice via email from PFM Consulting. With the exception of Exhibit N - Source of Legal Right to Enter, all requested documentation was received. Technical review of the amendment application cannot proceed until all required Exhibits are either provided as updated versions or references to where they can be found in previous revisions, if they remain unchanged, is presented. Turkey Canon Quarry, Inc. is a new permittee since previous TRs were approved. As such, an updated Exhibit N is required. Please provide an updated Exhibit N before November 5, 2022.

If, by November 5, 2022, the application has not been determined to be complete and filed, the Division may deny the application and terminate the application file.

This letter shall not be construed to mean that there are no other technical deficiencies in your application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.

If you have any questions, please contact me by telephone at 303-328-5229, or by email at [tim.cazier@state.co.us](mailto:tim.cazier@state.co.us).

Sincerely,

Timothy A. Cazier, P.E.  
Environmental Protection Specialist
