Hi Amy

The City of Lamar requests an extension for the corrective action of the removal of the Tamarisk from the Lamar East Pit M-1977-572 site as cited in the August 11, 2022 Inspection Report.

The City of Lamar was unable to remove the Tamarisk in the 60 day deadline due to prior scheduling of a Storm Sewer Project. The excavator and operator needed to remove the Tamarisk is working on the Storm Sewer Project.

The City of Lamar requests a 6 month extension (April 11, 2023) to complete the corrective action of the removal of the Tamarisk.

Thank you

Michael S Machone

City of Lamar

Hello Mike,

I just wanted to follow up with you on the Tamarisk problem at Lamar East Pit. The corrective action deadline (from my August 11, 2022 inspection report) is coming up on 10/10, which is next Monday.

Are you going to be able to submit documentation by that date?

If not, please submit an extension request prior to COB on Monday. The request should include an explanation for why the issue could not be addressed in the 60 day period, and also a schedule for completing the corrective action.

Feel free to reach out with any questions.

Best Regards,

Amy Eschberger
