

## MEMORANDUM

Date: October 14, 2022  
To: Clayton Wein, DRMS  
From: Brock Bowles, DRMS  
RE: New Elk Mine (C-1981-012), PR6  
Request to review subsidence information

---

On October 14, 2022, PR6 for the New Elk Mine was deemed complete. PR6 is adding 843.3 permitted acres and 219.1 affected acres.

The expansion area is to the east of the current mine plan and is in the Bosque del Oso State Wildlife Area. The structures in this area consist of one public road and many gas wells. The structures are listed in Exhibit 42 of the PR6 application.

I am requesting you to review the subsidence information for the PR6 expansion area. All the submitted information is available on LaserFiche.

The decision date for PR6 is December 13, 2022. Please submit your adequacy question to me by December 6, 2022.
