Re: INV18-022

Dear Mr. Bantam,

Following your department's last visit to our property in late 2019, my husband Steve began removing the structure on our property. Then in early March 2020, Steve contracted Covid-19 and has never recovered. He has been diagnosed by many physicians as having Long-Covid, which so far has been a disabling condition for him.

He has a plan to attain complicate and is working on it as his health allows. But it's unlikely to occur before winter.

Thanks for reaching out.

Melinda Hunter
