

# Figure 5

No surface water samples were collected in 2022 due to no flow in Windy Gulch.

Sample Locations:

- 1) WGL
- 2) 9360 Basin
- 3) 9700 Weir
- 4) WGU

Refer to Map G-3, Appendix 4 for sample locations.

Windy Gulch is an ephemeral stream and typically only flows in the spring (April/May) in years when there is enough snow pack to create runoff. Windy gulch had no flow in 2022 due to a lower than normal snow pack.
