RE: Platte S&H Mine M-2000-158, Follow-up to inspection dated September 1, 2022

Dear Mr. Zuber:

On behalf of Scout Investments, please accept this letter as follow-up to the corrective action items in the inspection report.

CORRECTIVE ACTIONS #1: The operator shall submit a Technical Revision by 12/09/22 for the future removal of the concrete and rebar or provide proof that the material has been moved offsite.

RESPONSE: The concrete and rebar came from the tear down of the previous plant set up. We are working on having it removed by 12/09/22 and will provide photo documentation when completed.

CORRECTIVE ACTIONS #2: The operator shall, at the entrance of the mine site, post a sign which shall be clearly visible from the access road. The operator shall submit photo documentation that a proper sign has been posted by 11/04/22.

RESPONSE: Please see attached photo documentation.

We will keep you updated on the concrete and rebar removal. Please let us or Scout Investments know if anything additional is needed for Corrective Action #2.

Sincerely,

A handwritten signature in cursive script that reads 'Julie Mikulas'.
