**RE: Cresson Project, Permit No. M-1980-244**  
**Notice of Past Due Annual Financial Warranty Update**

Ms. Smith:

In Amendment No. 13 (AM-13; approved on December 23, 2020), the operator committed to providing the Division with an updated financial warranty calculation at the end of October of every year. This updated calculation will address all existing disturbance as well as any planned disturbance for the following year. To date, the Division has not received the updated calculations that were due in October 2021 and October 2022.

Per the AM-13 commitment, please submit an updated financial warranty calculation for the site which includes costs for reclaiming all existing disturbance and any planned disturbance for the following year, by **November 30, 2022**.

To better track this commitment, the Division has added it as a compliance requirement in our internal permit system. This means starting next year (2023), both the operator and the Division will receive an email notification of this compliance requirement, due by October 31<sup>st</sup>.
