Re: Annual Report Permit M1997065

Dear Sir or Madam:

We are providing the attached Annual Report forms, including (1) a Land Status Map of the permit area and (2) an aerial image captured March 24, 2022. This image provides the status of all lands within the permit area and shows the extent and type of activities for calculation of areas. The areas reported in prior years used a map schematic that was not as accurate as that I am including with this report. Our team, in reviewing the permit information, has moved forward with the acquisition of aerial photography to best reflect quarry activities, actual permit acreage of 70.20 acres, and our management of the land. Enclosed are those results.

Please let me know what questions you may have.

Sincerely,

A handwritten signature in blue ink, appearing to read 'H. A. Olinger', with a stylized flourish extending from the end.
