**Re: Mountain Coal Company, LLC, West Elk Mine; Permit No. C-1980-007;  
Technical Revision No. TR-151, Increase size of E-Seam Longwall Panel 12  
(LWE12)**

Dear Mr. Simmons:

Mountain Coal Company, LLC (MCC) submits revised map 51, cover letter and a proposed public notice in application of Technical Revision No. TR-151 to extend LWE12 to the West to include 26.11 acres in order to extract the maximum economical amount of coal within the permit boundary.

MCC will increase the currently permitted LWE12 to gain approximately 1,058,473 more tons of coal. The extension of the panel is still within in the current permit boundary and area of Township 13 S, Range 90 W, section. This area is also within the already permitted archeological area and does not need additional Cultural and Historic Inventory studies.

Please contact me at (970) 929-2238 or by e-mail should you have questions regarding this submittal.

Sincerely,

A handwritten signature in cursive script that reads "Nicole Poulos".

Nicole Poulos
