

Notes:

9. No new area was disturbed this year. Pit run material was removed from the partially mined area and stockpiles this year. When more processed material is needed, mining will resume in the stripped and partially mined area shown on the map.

13. No reclamation is required at this time.

15. We estimate there is 40,000 cu-yds of topsoil/overburden is stockpiled on the mine at this time. The maximum amount of disturbance allowed at the mine is 9.99 acres.

19. The Bond is currently \$22,000.00 is enough to reclaim the disturbed area. It was last evaluated during an inspection on 2-22-2019.
