Re: Permit No. M-1980-244; Cripple Creek & Victor Gold Mining Company; Cresson Project;
May 26, 2022 Inspection Corrective Action Due Date Extension Request

Dear Ms. Eschberger:

On May 26, 2022, Colorado Division of Reclamation, Mining, and Safety (the Division) completed a routine monthly inspection of Newmont Corporation's Cripple Creek and Victor Gold Mining Company (CC&V). The inspection report dated October 31, 2022, issued to CC&V by the Division requires an Acreage Reduction Request (AR6) which includes, installation of monuments and final survey to be completed at the Carlton Tunnel by corrective action due date of November 30, 2022.

CC&V hereby requests an extension to the corrective action due date of November 30, 2022 to December 15, 2022 in order to allow CC&V adequate time to complete the monument installation and final survey.

Items to note.

- Contractor is currently working on VLF2, Phase 3 project. Working on Carlton Tunnel monument installation when not needed at the VLF.
- To date the contractor has "nailed" 23 points.
- Contractor has estimated that it should take approximately 3-4 days to install monuments depending on weather, hardness of ground and rock.
- Final survey will be completed after installation of monuments.
- Submittal of AR6 along with final surveys by December 15, 2022

Should you require further information, please do not hesitate to contact Johnna Gonzalez at (719)313-0447, Johnna.Gonzalez@Newmont.com, or myself at (719)851-4042 or Katie.Blake@newmont.com.

Sincerely,
