RE: Williams Fork Mine Permit; C1981044
DRMS Review Sediment Pond Inspections 2022 Quarter 2

Dear Ms. Kawcak:

Thank you for your submittal of the 2022 quarter two sediment pond inspection report for the Williams Fork Mine. The Colorado Division of Reclamation, Mining and Safety (The Division), has reviewed the above referenced report, received by The Division on 22 September 2022. Sediment pond inspections were conducted by Miranda Kawcak on 8 June 2022.

This report appears to be in compliance with the applicable sections of Rule 4.05.9. Maintenance items identified during the inspection comprised the need for a replacement weir at the spoil spring outfall. None of the ponds held water at the time of inspection. Only the spoil spring outfall was discharging at the time of inspection.

Best Regards,

Robin Reilley, M.S. GISP
Environmental Protection Specialist II
