Jason and Tabetha,

We received the attached two requests for comments regarding the Hayden Gulch Loadout and would like to thank you both for including CPW in the process.

CPW has reviewed the materials and has no wildlife concerns at this time. We believe that its proximity to the Town of Hayden, the airport, and being an established transportation path the Hayden Gulch Loadout will not negatively impact wildlife habitat or movement corridors.

Please let me know if you have any questions.

Thank you,

Molly West
