Morgan County

Annual Report

Morgan Sand & Gravel Did not strip of any overburden this year, we removed enough last Year. MS&G crushed and stocked piled around 80,000 ton of different material.

This year we will crush about the same amount of material , and place in stock piles Still have some material in phase 2 to crush.

We will be into area 4 some time this year. So will have to remove some overburden and Top Soil. Top Soil will be placed in stock pile and seeded the Over burden will be place an seeded also.

We are going to place a pond on property line to catch the dirt run off Red line on map is where the dam will be placed. We will line the front and water side with Rip Rap .

Respectfully, Morgan Sand & Gravel
