**Re: J-2 Consulting Company, Hunt Irrigation Pond, File No. M-2022-050, Second Incomplete Submittal of Special Operation 111(1)(b) Reclamation Permit Application**

Mr. York:

On December 15, 2022, the Division of Reclamation, Mining and Safety (Division/DRMS/Office) received the incompleteness response for the Special Operation 111(1)(b) Reclamation Permit Application for the Hunt Irrigation Pond, File No. M-2022-050. Review of the information received determined the following items must be received before the Division can consider the application as being submitted and technical review can begin:

**Application Form**

1. The application must include a fully executed financial warranty in the amount of \$2,500 per acre of affected land (a fraction of an acre is counted as one acre for calculation). Please submit a financial warranty in the amount of \$70,000.00, a performance warranty and an affidavit of authority.

The application will not be considered filed until the information listed above is received and found sufficient to begin our review. A decision date will be established 15 days from the date of receipt of all of the requested information.

You have sixty (60) days from the date of the first incompleteness letter to submit all necessary documents the Office needs for the application to be considered filed. If, at the end of the sixty day period, the application has not been determined to be filed with the Office, the Office shall deny the application and terminate the application file.

**The response due date is January 29, 2023.**

This letter shall not be construed to mean there are no other technical deficiencies in the application. The Division will review your application to determine whether it is adequate to meet the requirements of the Act after submittal of all required items.
