**Re: Heit Sand and Gravel Mine - File No. M-2003-016 Pioneer Sand Company, Inc.
Technical Revision (TR-5) Reduce setback from slurry wall center line**

Dear Ms. Bellantoni:

On January 4, 2023 the Division of Reclamation, Mining and Safety concluded its review of the Technical Revision application submitted to the Division on January 3, 2023, addressing the following:

Permittee request to reduce the setback from the slurry wall center line from 30 ft. to 12 ft based on provided geotechnical stability report.

The decision reached by the Division is: approve. DRMS approves the Permittee request to reduce the setback from the slurry wall center line from 30 ft. to 12 ft based on provided geotechnical stability report.

The terms of Technical Revision No. 5 approved by the Division are hereby incorporated into Permit No. M-2003-016. All other conditions and requirements of Permit No. M-2003-016 remain in full force and effect.

If you have any questions, please contact me by telephone at (303) 866-3567 x 8140, or by email at Eric.scott@state.co.us.

Sincerely,

Eric C. Scott
Environmental Protection Specialist
