**RE: Meeker Pit, Permit No. M-1976-037, Technical Revision TR-4 Decision Due Date Extension
Request Approval**

On January 19, 2023 the Division of Reclamation Mining and Safety (Division) received your request to extend the decision due date. Due to winter conditions and snow cover additional time is needed to complete field work required to address adequacy issues with TR-4. The Division is approving the extension request. The decision due date for permit application of M-1976-038 has been set for June 1, 2023

Please submit responses to adequacy review #1 as soon as possible in order to allow the Division sufficient time for review. If any adequacy issues remain by the decision due date the Division may deny your request.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell

Environmental Protection Specialist
