Eric –

Attached is a summary letter detailing the readings taken for January and the dewatering that occurred in December from Kelly. The January dewatering will be provided with the February monitoring readings. Also attached are the letters and information that AgPro sent out to the off-site well owners. Everything is combined in one pdf file. There are a few more pages as AgPro is sending a separate letter to Jerry Winters for the Hoffner wells instead of sending the same letter they were sending to Dixie Hoffner (his sister) for the previous readings.

Please let me know if you have any questions or concerns.

Regards,

J.C.
