

File Code: 2810
Date: January 30, 2023

Mr. Joe Dorris
Claimant/ Operator
2920 Cedar Heights Drive
Colorado Springs, CO 80904

Dear Mr. Dorris,

I received your Notice of Intent (NOI) on January 18, 2023, to conduct limited production and maintenance activities on the Agnus Dei unpatented mining claim administered by the Pikes Peak Ranger District in portions of Sections 12 and 13, T. 14 S., R. 68 W., 6th Principal Meridian, El Paso County, Colorado. Your Agnus Dei NOI has an identification number of **2810-021209-NOI-2023-003**. Please use this number in all future correspondence.

In reviewing your NOI, it has been determined that a mine Plan of Operation (MPO) is not needed at this time. A MPO and reclamation performance bond will be required for my review and approval if you *create significant resource disturbance to surface resources* as a result of proposing or doing any of the following:

- Failing to backfill any holes, pits or trenches.
- Cutting any trees.
- Using mechanized equipment.
- Using roads that are not National Forest System (NFS) roads with mechanized vehicles (including OHV).
- Creating new access routes or roads.
- Constructing any structure of facilities.
- Placing signage other than mine claim corner post identification.
- Do anything that might cause a significance disturbance.

No deviation from this NOI is authorized without my prior written approval. Your Notice of Intent is valid for 2023 until December 31, 2023. You will need to submit a new NOI for any proposed activities after December 31, 2023.

I am enclosing information on the reclamation standards for this district for your review. You are required to follow these standards to be in compliance with your NOI.

Please note that where not otherwise restricted, it is prohibited to camp more than 28 days within a continuous 60-day period, and/or occupy any campsite for more than 14 days during this 60-day continuous period within three miles of the previous campsite. In addition, Forest Service MVUM rules and regulation require vehicles to park in areas immediately adjacent to NFS roads, preferable in areas without vegetation.

As reminder, you are required to follow all State and Federal mining and water quality rules and regulations.

If you have any further questions or comments, you may contact Geologist Amy Titterington at 719-838-0699 or email her at amy.j.titterington@usda.gov.

Sincerely,

CARL R. BAUER
District Ranger
