Hi Jeff.

As we discussed on the phone, due to the conditions on the ground at the Kokes Gravel Pit, permit no. M-1978-249, I have been unable to conduct the acreage release inspection. I extended the decision out 30 days to March 10, 2023. The Notice of Weather Delay letter is attached for your records. I'll reach out to you later this month to reschedule the inspection.

Kind regards,

--

RE: Kokes Gravel Pit; DRMS File No. M-1978-249; Inspection Required – Notice of Weather Delay

Dear Mr. Reeves,

On December 2, 2022, the Division of Reclamation, Mining and Safety (Division) received your request for a full/final release of 32.25 acres for the Kokes Gravel Pit, File No. M-1978-249. The Division is required to conduct an inspection when an Operator has requested an acreage reduction or when an Operator requests a full or partial surety release. The Division will conduct an inspection to verify that reclamation has been completed in accordance with the approved Reclamation Plan and the Reclamation Performance Standards outlined in the Construction Materials/Hard Rock Rules. Due to weather and ground conditions, the Division is unable to conduct the inspection at this time. In accordance with Rule 4.17.2(2) The Division will conduct the inspection as soon as weather and ground conditions permit.

If you have any questions, you may contact me at (303)866-3567 x8126.

Sincerely,

Nikie Gagnon
