**RE: GCC Rio Grande, Inc., Cedarwood Mine, Permit No. M-1977-317, Technical Revision 02,
Request for Response Deadline Extension**

Dear Mr. Lennberg:

On December 27, 2022, DRMS submitted its preliminary adequacy review of the TR-02 application for GCC Rio Grande Inc.'s (GCC) Cedarwood Mine. The original deadline to address DRMS's comments was set for January 16, 2023. On January 13, GCC was granted a 30-day extension resetting the deadline to February 15, 2023. GCC needs some additional time to complete its response and is requesting an additional 30-day extension from the February 15 deadline to submit its response.

If you have any questions regarding this submittal or need any additional information, please contact me at (719) 647-6861.

Sincerely,
