Good afternoon Dustin. CRG would like to formally withdraw the request for a refund of the C8 NOI at this time. It has come to our attention that we still have one drill hole needing to be properly plugged. I will keep you posted of the activity.

Best Regards

*(2) Such report shall contain, at a minimum:*

*(a) the name of the operation, the name of the Prospector, file number of the Prospecting Notice of Intent and the name, mailing address, e-mail address and phone number of the contact person;*

- (b) a signed statement by the Prospector that all reclamation requirements of the prospecting notice have been satisfied;*
- (c) a narrative describing site grading, topsoil replacement, successful revegetation and other stabilization activities, as appropriate;*
- (d) suitable photographs of the reclaimed area; and*
- (e) a map of sufficient detail to determine the location of the prospecting activity.*

*(3) The Office shall, within thirty (30) days after receiving said report, or as soon thereafter as weather conditions permit, inspect the lands and reclamation described in the notice to determine if the Prospector has complied with all applicable requirements.*

*(4) If the Office finds the reclamation to be in compliance with the requirements of the Notice of Intent, Rules and Regulations, and the Statute, the Office shall release all applicable performance and financial warranties. The financial warranty shall not be held for more than thirty (30) calendar days after the Office finds that the Prospector has successfully completed reclamation. Hello Dustin and happy new year. I was looking to see if we could begin the process of refunding the bond on the C-8 NOI as it sits entirely inside the M-2016-083 Upper Gold Links Mine AM1?

Please let me know what my next steps should be
