Re: Permit No. M-1980-244; Cripple Creek & Victor Gold Mining Company; Cresson Project; Surety Accounting Update SA6 to
Technical Revision 115 –Autonomous Haulage Tower Extension Project – Joe Dandy Site

Dear Mr. Russell:

Newmont – Cripple Creek and Victor Gold Mining Company (CC&V) hereby provides the Division of Reclamation, Mining and Safety (DRMS) Surety Accounting (SA) Update SA6 to Technical Revision (TR) 115; Proposing the Autonomous Haulage Tower Extension project for the Joe Dandy location (see Figure1).

The Joe Dandy site includes replacing the existing 40-foot tower with an 80-foot tower.

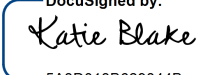

There will be installation of one storage shed located at the Joe Dandy site. This location is identified in Figure 1. The approximate measurement of the storage shed is eight-feet wide by ten-feet long; which will be located on top of a six-inch concrete slab foundation. Activities within the storage shed will be limited to communication equipment storage, with no designated chemicals stored within the building.

Construction activities will begin immediately, pending approval from the Teller County Planning Department

The estimated cost for building and slab demolition is \$3, 644.26; as shown in Table 1. This brings the total liability amount to \$208,773,596.11; which CC&V will account for out of the surplus financial warranty. This will bring the surplus financial warranty to \$717,591.89.

Should you require further information please do not hesitate to contact Johnna Gonzalez at 719-313-0447 or johnna.gonzalez@newmont.com or me at katie.blake@newmont.com.

Regards,

DocuSigned by:
