Amendment Application (AM-04)**

Dear Mr. Langenfeld,

On December 22, 2022, the Division of Reclamation, Mining and Safety received your 112 Construction Materials Reclamation Permit Amendment package (AM-04) for the Hayden Gravel Pit site, File No. M-1987-164. All comment and review periods began on January 5, 2023, and a decision date has been set for April 5, 2023. Per our conversation on February 9, 2023, the Division understands that public notice has not yet been set. Pursuant to Rule 1.6.2(1)(d), within ten (10) days after application submittal, you must publish in a newspaper of general circulation in the locality of the proposed mining operation once a week for four (4) consecutive weeks.

The Division will not proceed with adequacy review for this amendment until proof of public notice is received. Please note that an extension request will be required for sufficient review of AM-04 and to allow for the full comment period.

If you have any questions, please contact me at (303)866-3567 x8176 or (720)868-7757.

Sincerely,
Hunter C. Ridley
