RE: Broken Arrow Investments, LLC – File No. M-2008-017 Derr Pit – Summary for February Water Level Reporting

Dear Mr. Scott,

Broken Arrow Investments, LLC is providing this summary letter to discuss and provide information in regard to the February off-site an on-site monitor wells and provide the dewatering volumes pumped for January.

During the month of January a total of 0.0 acre-feet was pumped and discharged into the on-site recharge ponds within the Derr Pit.

AgPro was able to get the normal monthly readings/measurements on all of the off-site wells for the February readings. As discussed in our technical revision letter there are some on-site wells that were removed due to the slurry wall construction and those wells are no longer in place. Monitor Well 11 is no longer accessible and neither is Monitor Well 1. The on-site monitor wells saw a decrease in the elevation of the water levels. The water level elevations in the monitor wells on the Phase 1-4 portion of the pit went down on the south side by 0.36 feet and down by 0.28 feet on the north side. The water level elevations in the monitor wells on the upper terrace of the permit area increased by 0.09 feet for MW-14, no change for MW-15, no change for MW-16, no change for MW-17, and no change for MW-18.

Please give me a call at (970) 566-5090 or send an e-mail to discuss further.

Sincerely,

Kelly Hodge
