RE: Preliminary Adequacy Review; Technical Revision (TR-11) – Request to Reduce the Groundwater Sampling Analyte List; Cross Gold Mine, Permit No. M-1977-410

Dear Mr. Takami,

On February 22, 2023, the Division of Reclamation, Mining and Safety (Division/DRMS) received a request for Technical Revision (TR-11) to reduce the groundwater sampling analyte list for the Cross Gold Mine, Permit No. M-1977-410. Please be advised that on March 24, 2023, the application for TR-11 may be deemed inadequate and denied unless the following item is addressed to the Division's satisfaction.

1. Please provide an updated Table 4.1 Groundwater and Effluent Testing Parameters that reflects the requested reduction of analytes.

This concludes the Division's preliminary adequacy review of your application. The Division reserves the right to further supplement this document with additional adequacy items and/or details as necessary.

The decision date for your application is set for **March 24, 2023**. If additional time is needed to respond, an extension request must be received by our Office by the decision date. If on the decision date, outstanding adequacy items remain, and no extension request has been received, your revision may be denied and the file terminated.

If you need additional information or have any questions, please contact me by telephone at **303-866-3567 x8114**, or by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
