Hi Tim –

I will let you know as soon as I hear back from the contractor. I've attached a picture of where the blocks were; they pulled a total of 3 blocks out.

Thanks Misty. Please be certain on the type of mustard, as there is a significant difference between the two as to how we proceed. Also, do you have pictures of the areas where the concrete blocks were removed?

Hi Tim –

The concrete blocks were removed on 2/24. I am still waiting to hear back from the weed specialist but it is believed to be “Elongated Mustard” that they treated.

Please let me know if you have any questions.

Thanks,

Misty Gothard

Paul, Misty:

I do have one follow-up question. Misty said mustard weed was treated on site. Can you get specifics as to whether it was "Asian mustard" (*Brassica tourneforti*), "Elongated mustard" (*Brassica elongata*), or something else?

Thanks.

I will copy both of you on the inspection report.

Good Morning Tim:

Thanks for meeting with Misty yesterday at the property.

Although it was cold, it sounds like it was a good meeting. Misty advises that two more of the mafia blocks still need removal. We have already asked our local office to do this as soon as possible. We will report back to you when this is finished.

Do you have other comments from the visit? Will you be putting together an inspection report as you have done following previous visits? If yes, please send us a copy of your report.

Thanks again for all of your efforts in closing out this permit on the 289-acre portion of the permitted land.
