***RE: Rifle Gravel Pit #1, File No. M-2021-052, Comments Regarding 112c Regular Construction Materials Application - Amendment (AM-1)***

Dear Mr. Hurley:

On March 1, 2023 the Division of Reclamation, Mining and Safety (Division) received confirmation from Colorado Parks and Wildlife (CPW) that they had no additional comments in response to the revised application materials submitted to the Division on January 9, 2023. Additionally, the revised application materials have sufficiently addressed all of CPW's concerns outlined in their July 1, 2022 comment letter.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

***Amy Yeldell***  
Environmental Protection Specialist
