RE: Rifle Gravel Pit #1, Permit No. M-2021-052, Decision Due Date Extension Request Approval-6

Dear Mr. Hurley:

On March 17, 2023 the Division of Reclamation Mining and Safety (Division) received a request from J&T Consulting, Inc. to extend the decision due date to April 17, 2023.

Please be advised that per Rule 1.4.1(9), if, at the end of the three hundred and sixty-five (365) day period, the application has outstanding adequacy issues, the Office may set the matter for a Board hearing. At the hearing the Board may deny, or approve the application with or without conditions. This application was filed on April 29, 2022 therefore the 365th day is April 29, 2023.

The Division is approving the extension request. The decision due date for permit application of M-2021-052 has been set for April 29, 2023.

Submit responses to the adequacy review(s) as soon as possible in order to allow the Division sufficient time for review. If any adequacy issues remain by the decision due date the Division may deny your request. If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell
Environmental Protection Specialist
