RE: Permit No. M2009-018, Heintzelman Project P116 – Request for Partial Release of Permit Area

Dear Rob,

In response to your letter of Incompleteness dated March 20, 2023, please see applicant comments below:

1. Please clarify the acreage values on page 4 of the electronic permitting application. This page states that the proposed change in acres is 0.0. This can be in your response letter. *The proposed change in acres on page 4 should show a reduction of 1.95 acres. This was inadvertently left off. The acreage is consistent with page 1 of the Request for Full or Partial Release of Permit Area form.*
2. Please explain why the second page of the application form does not include Jacqueline Varra. It appears that she should be on the page and not in the attachment. Revise and resubmit the form, as appropriate. *Please see the revised application form attached with this letter. Both Pasquale and Jacqueline Varra are deceased. Denny L. Compton is the Personal Representative for the Pasquale and Jacqueline Varra Estate, which is the owner of Lot 2 of the Varra – Heintzelman Pit Subdivision, Amendment No. 1. The application form now includes this information, along with identifying Robert B. Compton and Denny L. Compton as the owners of Lot 1.*

Please contact me if you have any further questions. Thank you,

Sincerely,

Vecchi & Associates, LLC
