**Re: Technical Revision Approval, Revision No. TR-134
Cresson Project – Permit No. M-1980-244**

Dear Lori Smith:

On March 30, 2023 the Division of Reclamation, Mining and Safety (Division) approved the Technical Revision application submitted to the Division on February 16, 2023, addressing the following:

Relocation of three (3) Magnesium Chloride Tanks to satisfy the Corrective Actions identified in the December DRMS inspection report dated January 17, 2023.

The terms of Technical Revision No. 134 approved by the Division are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect.

The Division reviewed the change associated with TR134 for impacts to the financial warranty and determined that this change does not require an increase in the current reclamation liability since the magnesium chloride tanks are already accounted for under the current bond.

If you have any questions, please contact me by telephone at (303) 866-3567 x 8126, or by email at nikie.gagnon@state.co.us.

Sincerely,

Nikie C. Gagnon
Environmental Protection Specialist
