**Re: Extension Request Approval, Corrective Actions, Potts Pit #2, Permit File No. M-2006-013**

Dear Ronda Neumeister,

On April 6, 2023, the Division of Reclamation, Mining and Safety (DRMS/Division) received Eastern Colorado Aggregates, R.L.L.P.'s request to extend the deadline for the corrective action "Erosion gullies and ruts were observed on-site. This is a problem at this time for failure to protect the affected land from erosion pursuant to C.R.S. 34-32.5-116(4)(j)" and for the corrective action "The permittee/operator must provide legal right to enter and conduct mining and reclamation operations with both the surface and subsurface owners as described in Rule 6.4.14" cited in the January 2023 inspection for the Potts Pit #2 site from the current April 7, 2023 and April 8, 2023 due dates (respectively) to May 8, 2023. **The Division hereby approves the extension requests for both of these items. The new due date for these problems is set for May 8, 2023.**

If you need additional information or have any questions, please contact me by telephone at (303) 866-3567 x8137, (720) 836-0967, or by email at [amber.michels@state.co.us](mailto:amber.michels@state.co.us).

Sincerely,

Amber Michels  
Environmental Protection Specialist
