TO:

Mined Land Reclamation Board
Colorado Division of Reclamation, Mining, Safety
1313 Sherman Street, Denver, CO 80203

Operations continued at Hindmarsh Sandstone quarry during this past year. A new disturbance was performed in the fall of 2022 during these past twelve months. The disturbance was .27 of an acre, adjusting the total disturbed area to 7.64 acres, as noted on W side going S.

Rip Rap sorting continues in the North quarry, as well as stockpiling and dispensing in same "Stockpiling and Dispensing" area.

No reclamation has been performed during the past year. A general clean up of the quarry is continually performed. No official reclamation is expected for the up-coming year.

The annual fee payment for the YR-2023 of \$791.00 is enclosed.

RESPECTFULLY SUBMITTED,

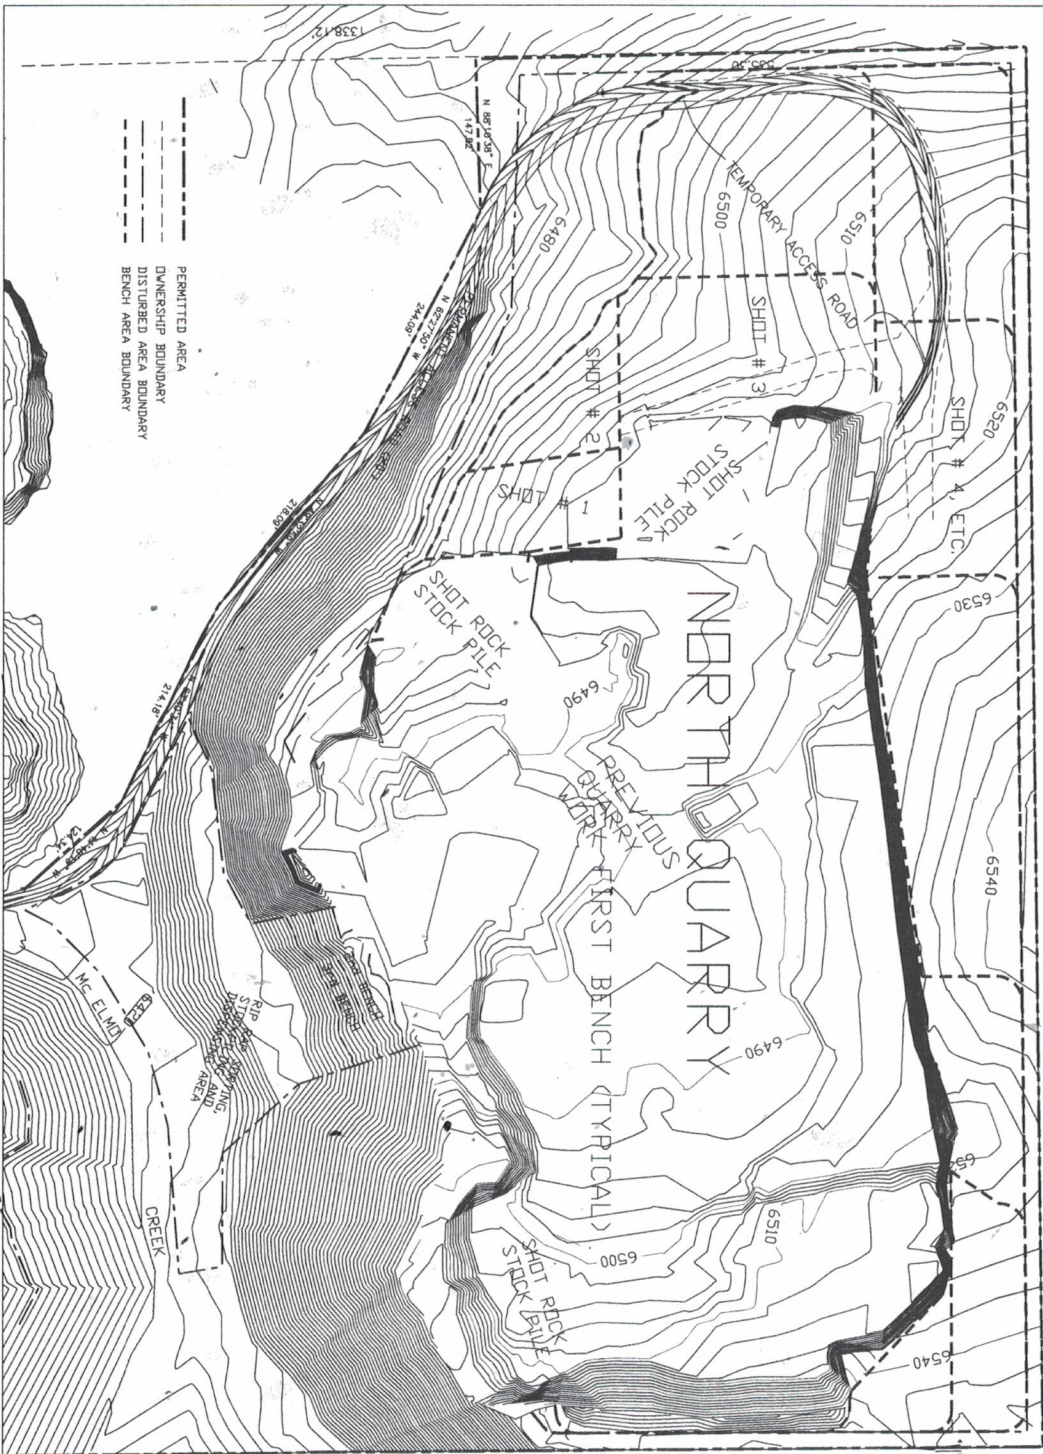

William K. Goode, Manager
