Good Afternoon Mr. Bishop

We are scheduling our next blast for Wednesday, April 19, 2023, pending weather and or mechanical issues between the permit hours of 8 am and 3 pm. We are estimating the blast to go off around 1 pm. I will contact you an hour before shot time so that you can prepare. Buckley Powder Company will be setting up a seismic unit at your house the day of the shot should you still want to have that done. If you want to continue with a seismic station at your home, we will contact the 3rd party group to set up a semipermanent unit for you at our cost.

Should there be any questions or concerns please feel free to contact me.

Have a great weekend,

Wayne Stoughton
