Re: New Horizon North Mine (Permit No. C-2010-089)
Revision: MR-33
MR-33 Permanent Feature Retention Request

Dear Mr. Garvey:

The Division of Reclamation, Mining and Safety has received an application for the above referenced permitting action for the New Horizon North Mine. The application was deemed complete on April 14, 2023.

MR-33 provides a letter for the surface landowner to retain permanent structures post mine. The applicant is not proposing additional surface disturbance outside of the area currently approved for disturbance.

Permit Revision (PR), Permit Renewal (RN), or Technical Revision (TR) application materials are available for review at the RH.Record_Holders and at the Division's Denver office. Minor Revision (MR) and Surety Release (SL) application materials are available for review at the Division's Denver office.

If you have any questions, please contact me.

Sincerely,

A handwritten signature in dark ink that reads "Clayton Wein". The script is cursive and fluid, with the first name "Clayton" and last name "Wein" clearly legible.
