To: Amy Yeldell - DNR &lt;amy.yeldell@state.co.us&gt;

Hi Ms. Yeldell ,

I am reviewing the referenced permit application we received on April 10, 2023, and I would like to request a map that clearly shows the permit boundary. Specifically, we request a topographic map showing the boundary of the proposed action. An aerial map and coordinates is sometimes helpful as well, but it should be for the location of the proposed action. We understand that sometimes this information is provided in the permit documents on the DNR website, but locating this information on the website can prove to be difficult and not always helpful for the purposes of reviewing and identifying potential resources in the area of the proposed action. As such, we request that the appropriate maps be sent directly to us. If the locational information requested cannot be provided, our response will include data for the entire Township(s), Range(s), and Section(s) provided in your letter.

As a reminder, the State Register Act gives the SHPO 30 calendar days to provide a response to the state agency. If the response is to ask for additional information to be able to render a comprehensive and accurate response, the 30-day 'clock' will pause and restart at zero when the SHPO receives the information it requested.

Thank you,

Holly McKee-Huth
