Re: SR pit LLC
White River S&G Pit, Permit # M-1991-009

Attn: Amy Yeldell

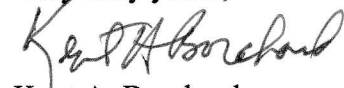

Dear Ms Yeldell

I have completed the annual report and paid the fee. By this letter I am requesting the withdrawal of the Technical Revision form I previously filed based on your statement that in order to change the post mining land use I have to file an amendment to the permit. I am forwarding to you a draft amendment form. Let me know if it is correct.

Finally, I am requesting a reduction of the financial guarantee amount. All that is left to be done for reclamation of the site is seeding the hillsides. I think \$5,000.00 is adequate to guarantee this.

Thank you for your assistance.

Very truly yours,
