**Re: Division Comment, First (1<sup>st</sup>) Quarter 2023 Groundwater and Surface Water Monitoring Report;  
Cross Gold Mine, Permit No. M-1977-410**

Dear Mr. Takami,

On April 27, 2023, the Division of Reclamation, Mining and Safety (Division/DRMS) received your First (1<sup>st</sup>) Quarter 2023 Groundwater and Surface Water Monitoring Report for the Cross Gold Mine. After review of the submission the Division has the following comment.

At this time the Division does not consider the 1<sup>st</sup> Quarter 2023 monitoring data to qualify as one quarter of baseline monitoring because not all of the data was collected in a manner consistent with the approved methods described in TR-10. However, it is noted that the last month of sampling was consistent with the approved methods in TR-10.
