Dear Mr. Daehling:

On April 3, 2023 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Availability of Records was cited as a problem for utilizing chemical on site that the Division does not have sufficient information for. Corrective actions required you submit to the Division the Safety Data Sheets (SDS) for the respective chemicals by the corrective action date.

On April 26, 2023 the Division the requested SDS. This satisfies the corrective action and it is considered abated.
