RE: Broken Arrow Investments, LLC – File No. M-2008-017 Derr Pit – Summary for April Water Level Reporting

Dear Mr. Scott,

Broken Arrow Investments, LLC is providing this summary letter to discuss and provide information in regard to the April off-site an on-site monitor wells and provide the dewatering volumes pumped for March.

During the month of March a total of 0.0 acre-feet was pumped and discharged into the on-site recharge ponds within the Derr Pit.

AgPro was able to get the normal monthly readings/measurements on all of the off-site wells for the April readings. A couple of properties have changed ownership so the new owners are who the letters are addressed to starting with these April readings. The Taylor property is now owned by Rocky Francis and the Koehler property is now owned by Janet Brown. As discussed in our technical revision letter there are some on-site wells that were removed due to the slurry wall construction and those wells are no longer in place. Monitor Well 11 is no longer accessible and neither is Monitor Well 1. The on-site monitor wells saw a decrease in the elevation of the water levels. The water level elevations in the monitor wells on the Phase 1-4 portion of the pit went down on the south side by 0.26 feet and down by 1.45 feet on the north side. The water level elevations in the monitor wells on the upper terrace of the permit area increased by 0.41 feet for MW-14, decreased by 0.50 feet for MW-15, decreased by 0.50 feet for MW-16, decreased by 1.52 feet for MW-17, and decreased by 1.60 feet for MW-18.

Please give me a call at (970) 566-5090 or send an e-mail to discuss further.

Sincerely,

Kelly Hodge

Broken Arrow Investments, LLC

Has	the	2-foot	trigger	point	for tv	vo consecutive	months	been	met?
-----	-----	--------	---------	-------	--------	----------------	--------	------	------

☐ Yes

⊠ No

Please find the attached table and graph representing the data collected to this date. Please do not hesitate to contact me regarding these activities.

Sincerely,

Elijah Adlesperger Field Technician 970-571-9038

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.
- 3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.

Janet Brown 443 N Brisbane Ave Greeley, CO 80634

Dear Ms. Brown:

AGPROfessionals' staff have been monitoring groundwater elevations on behalf of IHC Scott at your property. We perform this monitoring on the second Thursday of each month. April monitoring was shifted due to scheduling complications. Attached is the elevation we recorded on April 25, 2023.

Identifier	Depth to Water from Ground Surface
Koehler #1 Dom (Vault)	48.50
Koehler #2 Stock (Vault)	47.02
Koehler #3 Irr	50.44

Has the 2-foot trigger point for two consecutive months been met?

□ Yes

⊠ No

Please find the attached tables and graphs representing the data collected to this date. Please do not hesitate to contact me regarding these activities.

Sincerely.

Elijah Adlesperger Field Technician

970-571-9038

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.
- 3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.
