Can't seem to get an email back through so trying a new one.

Was just about to email you and ask for an extension.

The Warren pit we are only waiting for the water contract. Bill thought we'd have gotten it by now so I hope in a month.

The Graff pit we are still working through a change in mining procedure (want to pump) that will require a TR and new augmentation plan. There is no water exposed at this pit so not sure if we can just get it to you prior to mining.

Thank you, Mark.

I am going to extend the due dates for the corrective actions accordingly:

- Warren Pit - June 9, 2023
- Graff Pit - July 14, 2023.

In July, if you do not have a plan for water rights for Graff, we can reassess the situation.

Regards,
Rob
