

2021-2022 Changes shown in color

Area En is 3.9 acres used for materials stockpile and plant site, originally planned for reclamation in 2021 but now delayed due to need to use for plant and to mine out.

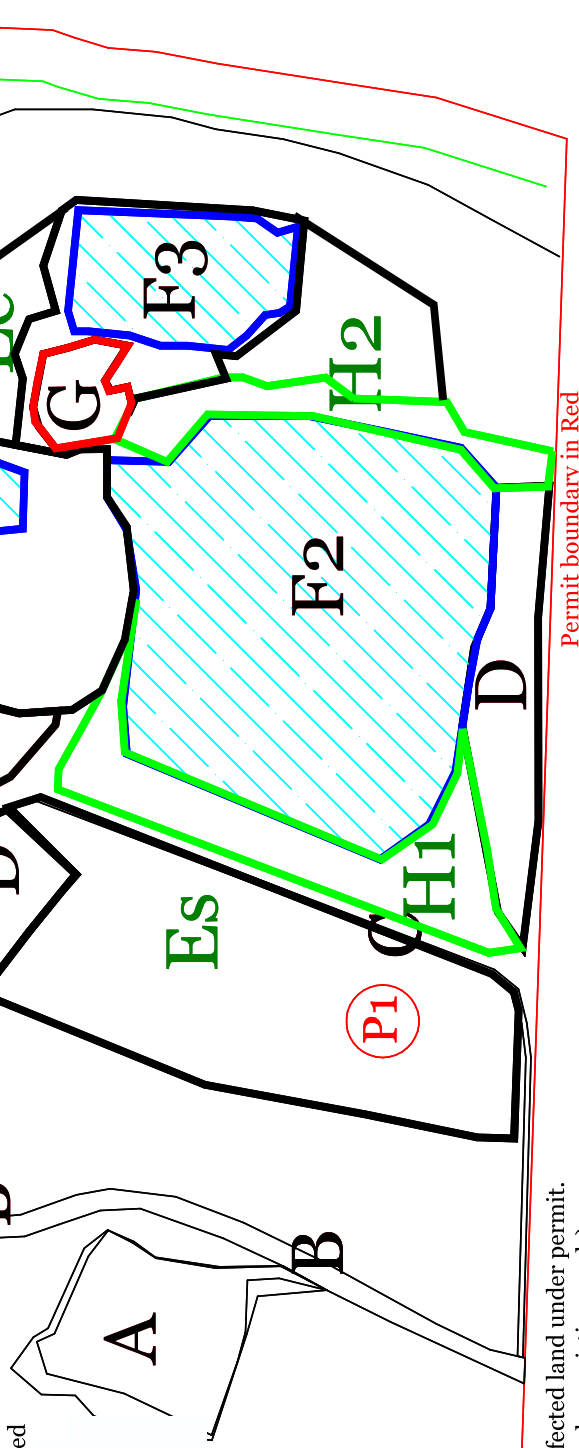

Area Es is 4.6 acres affected but still at original grade, used as plant site and to relocate stockpiles from En.

Plant Sites:

P1 - crushing and screening plant

P2 - washing plant relocated

Total highwalls moved but total length unchanged

Areas A, B, & C Not effected land under permit.

(Well pad pipeline and preexisting roads)

Areas D - soil stockpiles (2.5 Ac)

Areas E - Current work and traffic areas (13.5 Ac)

En - old stockpile area: wash plant & 2023 mining (3.9 Ac)

Ec - old wash plant now being mined around pond (4.2 Ac)

Ee - old wash pond/excavation (0.8 Ac)

Es - plant and stockpile area (2021-2023) (4.6 Ac)

Areas F - Ponds (open water) (9.0 Ac) (considered reclaimed)

Areas G - undisturbed islands (no reclamation needed)

Areas H - areas at final grade/slope (2.7 Ac)

H1 - west bank of pond F2 (1.8 Ac)

H2 - east bank of pond F2 (0.9 Ac)

Areas Ee and H2 expanded in 2022-3.
