Mr. Bleak:

On February 3, 2020 Cotter Corporation notified the Division that the above listed sites were in final reclamation and that Highbury Resources Inc. would acquire the permits through the Succession of Operators (SO) application process. The SO applications were processed and Highbury became the Operator in 2021.

Pursuant to C.R.S. 34-32-116 (7)(q) all reclamation of the sites shall be completed within 5 years from the date the Operator notified the Mined Land Reclamation Board (Board) that final reclamation commenced. **Therefore, final reclamation of each of the sites must be completed by February 3, 2025.**

Please note that it is incumbent upon the Operator to secure all appropriate approvals and authorizations for reclamation work from other applicable regulatory agencies in a timely manner in order to ensure final reclamation can be completed by the February 3, 2025 deadline.

If you require additional information, or have questions or concerns, please contact me.

Sincerely,
