Hi Hunter,

I have most of the renewal adequacy complete for Twentymile. I am just waiting for Nick to get back from his Honeymoon to approve the production and mine plan information. When I did the last extension I forgot he was going to be gone for two weeks. He should be back on Monday. Can we do one more extension to June 1st for both renewals?

A SI for Sage creek would be fine!

Thanks for working with us on these and sorry they have taken us so long!

Miranda Kawcak, PE
