Mr. Burkey:

On March 13, 2023 the Division of Reclamation, Mining and Safety (Division) received a request for release of reclamation responsibility for 17.5 acres from the permit area. The area requested for release has not been mined and contains the property owner residences and associated structures. Division staff inspected the site on May 15, 2023 and verified mining has not occurred in that area. The Division has approved your request. 17.5 acres from the northwest part of the permit area have been released from reclamation responsibility. The permit area has been reduced to 65.8 acres.
