Gettlemen,

During your visit yesterday, I expressed that my intention is to have all the adequacy issues addressed by the June 1st deadline. That is still my intention. However, in an abundance of caution, I would like to request an extension. Please let me know if there are any forms to fill out or if you have any questions.

Thank you.

Kurt Arnusch

No problem - All we really need is an email from you specifying how long an extension you will need (2 weeks, 30 days, etc..).

Just so you know, if all adequacy issues are addressed, and we can approve the conversion before the extension date arrives, we will.. For example - if you request a 30 day extension, but all adequacy issues are addressed in 2 weeks (or one week or whatever), we will approve it at the earliest date - no need for us to wait until the last day..

Eric,

I think a 45 day extension would be adequate.
